The value of competitive information in forecasting FMCG retail product sales and the variable selection problem
European Journal of Operational Research

Dear Dr. Tao Huang,

I am pleased to inform you that your paper has been accepted for publication in the European Journal of Operational Research. My final suggestions: correct typo of author name Aylenb (no "b", a typical cut-and-paste-error), and add acknowledgements to the referees.

The PDF file of the final version of your article will be available on ScienceDirect shortly after the corrections to the proofs have been received by Elsevier. I suggest that you read them carefully and check them once more against the original; you are the only one responsible for doing this. Together with the proofs you will receive an order form for reprints.

Editorial policy is to publish all papers quickly but authors will appreciate that the desire to have issues with balanced contents implies that papers will not simply appear in the order of their acceptance. That and the need to publish at a uniform monthly rate when the supply is variable will occasionally delay a paper's appearance longer than the Editors would wish, but if this should be the case with your paper, we trust that we can count on your understanding.

Your paper from now on is no longer under my control. Please, address queries only to the Journal Manager:
Rosie Stewart
E-Mail: r.stewart@elsevier.com

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit <http://www.elsevier.com/audioslides>.

Yours sincerely,

Immanuel Bomze
Editor
